

The Teiger for effortless removal of dough residues.

Smelly cloths full of dough? Dough residues on bowls and kneading tools that are difficult to remove?

And dough residue on your hands?

All can now be a thing of the past with the Teiger.

The Teiger makes cleaning up much easier and will increase your enjoyment of baking and cooking.

Does the problem sound familiar?

Are you a professional or hobby baker?

Then you surely know the problem with bad smelling cleaning sponges or rags.

With the Teiger, those are things of the past.

Are you curious?

Then scroll on!

HERE'S HOW TEIGER HELPS:

Gentle cleaning of all baking utensils

The Teiger cleans quickly, thoroughly, without leaving any traces of dough. Let your kitchen utensils and appliances shine in new splendor.

Cleaning dough hooks and all baking and cooking accessories

Baking and cooking accessories are often difficult to clean due to their shapes or textures.

The Teiger masters every cleaning job with a perfect result.

It's an all-rounder – highly versatile

The Teiger rises to every challenge. In addition to dough residues, the Teiger can remove a variety of other stubborn residues. Fruit and vegetables can be gently cleaned with Teiger before processing.

Finally, the Teiger cleans fingers and hands quickly and saves water.

WHAT MAKES THE TEIGER SO SPECIAL?

The Teiger is manufactured exclusively in Germany.

During production, special attention is made to the high-quality materials and their long-lasting effectiveness.

High quality materials

Thanks to those materials, with are pollutant-free, the special mesh structure and the extra reinforced hem, the Teiger will last much longer than other cleaning cloths.

All materials used comply with the Oeko-Tex Standard 100.

Versatile use

Suitable for all surfaces, whether plastic, chrome, copper, stainless steel, anodized surfaces, silicone, non-stick cookware, glass, crystal, porcelain, or ceramic. The Teiger cleans gently and without scratching.

Easy cleaning in the dishwasher

To clean, simply rinse the Teiger under running water. For a more effective result, cleaning in the dishwasher is recommended. Due to the special material and the net structure, bad odors caused by bacteria do not stand a chance.

Sustainable and water-saving

When using the Teiger, you will use significantly less water and achieve even better cleaning results than with other cleaning approaches.
